y/u otros países.. PIXMA PRO-100 Series all in one printer pdf manual download.. To determine the version of firmware installed, please press and hold the .Q: Split ArrayList based on position of null I have an ArrayList containing all the like strings in the

database. As of now I'm storing all the results in the database with a single column like this, 100,Boomer,1006,Boomer

#1 I'm using query("SELECT * FROM table_name") to get the data to ArrayList. I've split the ArrayList into String with comma.

String[] items = str.split(","); Let say, str = "100,Boomer,1006,Boo

mer#1" Now I need to split it based on, str = "100,Boomer,1006" How can I split an ArrayList based on null value of any array element? A: How about something like this? List inputs =
new ArrayList();
